</table>

SECONDARY COLOR PALETTE

A limited palette of colors has been created to coordinate with the Mines color palette. The secondary palette should never be used for the logo itself, but rather as complementary support and for neutral background color.

Mines’ longstanding use of silver as a branding color continues in this palette, with gray or metallic options, representing both our mining history and the high quality of Mines’ educational and research programs.

TYPOGRAPHY

Campus communicators who frequently develop Mines materials — online or print — should purchase Gotham licenses from Hoefler & Frere-Jones at www.typography.com.

Other appropriate, similar-looking fonts available with most programs include: Arial, Calibri, Tahoma, Verdana, Century Gothic.

COLORADO SCHOOL OF MINES SIGNATURE

The signature consists of this logo, plus two other elements — a wordmark and a tagline. Applied consistently and cohesively, these elements make a contemporary, future-oriented, sophisticated impression. We are Mines, a leader of the 21st century.

COLORADO SCHOOL OF MINES
EARTH • ENERGY • ENVIRONMENT

CLEAR SPACE

To create maximum impact, keep the space around the Mines signature free from other text and graphics. The clear space on each side of the signature should be equal to or greater than the x-height of the School of Mines wordmark.
